

# iNod™ | Ultrasound Guidance System

Real-time ultrasound visualization  
of a peripheral nodule biopsy

## Product overview

### *The iNod Ultrasound Guidance System*

The first commercially available, single-use bronchoscopic device that provides real-time ultrasound visualization of a peripheral nodule biopsy.

#### **iNod can:**

- Target smaller lesions (<2cm) adjacent to the R-EBUS probe
- Provide real-time visualization to the physician during the biopsy procedure

#### **The system includes:**

- iNod Ultrasound Guided Biopsy Needle
- iNod Ultrasound Guidance Console
